INTERIOR DESIGNER Margie Bromilow believes that the key to producing superior design outcomes is to forge strong relationships. Her other strength is in creating modern interiors that exude warm elegance, sumptuous formality, clean utility and lavish comfort. mbadesign.com.au.
What was the brief? To create a tailor-made apartment design for buyers seeking their 'forever home' in a sought-after location. *How did you resolve the challenges of the space?* To create a design that suited a range of apartments that offered a sense of space and room for entertaining. So even if buyers were downsizing, the quality of finishes and fixtures would mean they felt

uplifted into a new way of living. *How would you describe the completed interiors?* A luxurious apartment design that doesn't compromise on quality. *What design devices did you employ to maximise space?* The kitchen is a favourite area as the beautiful Sub-Zero and Wolf appliances and Blum storage that are installed are all luxuries that also serve to enhance the workspace. We look to instil a sense of space that still feels intimate. All available nooks have been utilised for practical storage. *Are owners happy with the execution?* Owners have been very positive. These apartments address the needs of buyers at every stage of life. *For details visit* blum.com; Nava apartments, navacaulfield.com.au.
